

What Faculty Affairs Administrators Need to Know About Working with the Federal Government

February 12, 2021, 2:00 – 3:00 PM (ET)

Working with the federal government is a topic about which faculty affairs administrators need to be informed so that they in turn can educate and guide faculty about the importance of cultivating good working relationships with federal officials, as well as the opportunities and challenges that come with engaging in national policy.

Following a presentation by two experienced representatives and leaders within APLU's Council on Government Affairs, there will be an open discussion period where the presenters will engage with questions from the audience. We encourage you to join us to learn more about this increasingly important dimension of our faculty affairs work.
